RE: Workforce Analysis Survey Report As Of December 31, 2009

Please find attached the tabulated results for the annual Workforce Analysis Survey, compiled by the Association. The Workforce Analysis Survey provides staffing level information for Connecticut financial institutions. The survey report lists the full-time equivalence for management and staff positions for various departments/functions. Data is based on information as of December 31, 2009.

## RESULTS

Thirty-four Connecticut banks responded to this twenty-second annual survey. A listing of the participating banks can be found on the next page.

In addition to the seventeen major category headings for departments/functions listed, several calculations have been reported using asset size, deposit size, the number of employees, salary figures and benefit amounts.

If you have any questions pertaining to this survey, please feel free to contact me at the Association office.

Sincerely,

COLLEEN E. CLANCY  
Vice President
