RE: Workforce Analysis Survey Report As Of December 31, 2017

Please find attached the tabulated results for the annual Workforce Analysis Survey, compiled by the Association. The Workforce Analysis Survey provides staffing level information for Connecticut financial institutions. The complimentary survey report lists the full-time equivalence for management and staff positions for various departments/functions. Data is based on information as of December 31, 2017.

RESULTS

Twenty-one Connecticut banks responded to this thirtieth annual survey. A listing of the participating banks can be found below.

In addition to the seventeen major category headings for departments/functions listed, several calculations have been reported using asset size, deposit size, the number of employees, salary figures and benefit amounts. If you have any questions pertaining to this survey, please feel free to contact me at the Association office.

Sincerely,

COLLEEN E. CLANCY
First Senior Vice President
