RE: Workforce Analysis Survey Report as of December 31, 2021

We are pleased to announce that the 2022 Workforce Analysis survey results are now available for purchase. The Workforce Analysis Survey provides staffing level information for Connecticut financial institutions. The survey report lists the full-time equivalence for management and staff positions for various departments/functions. Data is based on information as of December 31, 2021.

## RESULTS

22 Connecticut banks responded to this annual survey. A list of the participating banks can be found below.

In addition to the category headings for departments/functions listed, several calculations have been reported using asset size, the number of employees, salary figures, and benefit amounts. If you have any questions pertaining to this survey, please feel free to contact me at the Association office.

## PURCHASE THE REPORT

The survey report can be purchased by non-participating banks for \$250. To order the report, please complete and submit an [online order form](#). The Association will invoice you for the cost and email the results report to the email provided in the order form.

As a reminder, the Workforce Analysis Survey report is complimentary to participating banks. Participation in the 2023 Workforce Analysis Survey will ensure your institution receives the complimentary report.

Should you have any questions about the survey or results, please do not hesitate to contact me at the Association.

Sincerely,

KIM J. FENTON  
Learning, Development, & Digital Manager
